DETAILED ACTION

Claim Objections

1. Claims 1, 19, and 24 are objected to because of the following informalities:

- In claim 1, line 15, "positions" should read -- position --;
- In claim 19, line 9, the term -- and -- should appear at the end thereof; and
- In claim 24, line 7, "a securing and a" should be changed to -- a securing position and a --.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no disclosure for the link being pivotally connect to the first end of the lid (the only occurred of "first end" in claim 1). It appears there should be another "first end" set forth in the claim.

3. Claims 1-18, 20-23 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the claims are rejected for the following reasons:

It is unclear if applicant intends to set forth a "said first end" of the fastener in claim 1, line 12. If so, there is no antecedent basis for this limitation in the claim.

It is unclear if the second occurrence of "a first angular orientation with respect to the ground" in claim 13, lines 17-18 is intended to be the same as the first occurrence of this limitation at line 7. If not, how are the two orientations different?

It is unclear how the "weight pivots at said first and second points" when the weight is only set forth as being pivotally connected at a first point.

Claim 27 recites the limitation "said released position" in the last line. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3727

Dependent claims not specifically mentioned are rejected as depending from rejected base claims since they inherently contain the same deficiencies therein.

Allowable Subject Matter

4. Claims 25 and 26 are allowed over the art of record.
5. Claims 1-18, 20-23, and 27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
6. Claims 19 and 24 would be allowable if rewritten or amended to overcome the claim objections set forth in this Office action.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the
